## **Removing out of stock items from search** results

Last Modified on 29/09/2023 2:13 pm IST

You can remove Out-of-Stock items from search results and create a search button on your WebStore that customers can click to view only items that are currently in stock.

## How to Enable

Perform the following steps:

1. In WebSell Sync Configuration, under Advanced, select Field Mappings.

😂 WebSell Sync - Retail Mana	agement He	ro Edition 2.1.50 Build 2003	—		$\times$
File View Webstore Tool	s Help

**Note:** Ensure that you include a space character before the INSTOCK and OUTOFSTOCK keywords.

## 4. Click Validate, then synchronize your WebStore.

5. You can now create a button on your WebStore to search for such items using the following target address, where www.mystore.com is your WebStore URL: <a href="http://www.mystore.com/store/search.asp?">www.mystore.com/store/search.asp?</a> keyword=INSTOCK
